Levels- Reformer Pilates (At the Back)

- **Beginner:** An ideal place to begin if you have very little or no experience in Pilates (mat or reformer). The class is also suitable for those who have some experience in mat or reformer Pilates but have not done any in a while and would like a refresher of the concepts and moves.

This course will introduce you to the reformer and the variety of exercises that can be done on it. Your instructor will assess your breathing control and core strength and ensure that you feel comfortable with how to contract the core and pelvic floor muscles.

Your instructor will teach you how to protect your joints, spine, and muscles. We include education filtered through the classes – on bone health, injury-prevention tips and how to transfer and apply what you learn into everyday life. With a different class plan each week, you will progress and be challenged as your confidence and form improve. We will correct and monitor your form throughout each class, ensuring you are using your body safely and to the best of its ability. As classes are small your instructor will be able to modify the class to suit individual needs.

You can repeat this course again if you like as it will refine your technique, challenge you and build muscle and bone strength.

- **Improver:** This Level is for beginners who have completed a minimum of 3 previous courses at beginner level and those wishing to continue, adding more exercises and at a quicker pace. A complete understanding of reformer equipment as well as the ability to modify exercises to your body.

- **Athletic Conditioning: Experience/Skills Needed**

Solid understanding of Pilates principles (breathing, core engagement, alignment).

Ability to safely adjust springs, equipment, and body positions without constant instructor supervision.

Good body awareness and ability to follow more complex sequences at pace.

Prior exposure to intermediate or advanced Pilates movements.
